# Let's Celebrate the Birth of Your Baby

Your birth story is a testament to the incredible strength and tenderness of the human spirit. I have the greatest honor to document this miracle of life, and I am committed to preserving these invaluable memories with grace, sensitivity, and utmost respect.

Entrusting someone with the task of photographing your birth is deeply personal, and it is a privilege and honor each time I am chosen to be a part of such a sacred moment. My aim is not just to take pictures, but to weave together a visual narrative that you and your family will cherish for generations to come.

Please take a moment to explore the investment in preserving your birth story. I invite you to reach out, share your hopes, and let's create something beautiful together.

# About Your Birth Photographer

Hello! I'm Emily —an award-winning certified birth photographer, videographer, and certified birth and postpartum doula based in Central Florida.

I daydream of home-birthing and homeschooling my future children, owning a small 100-year-old farmhouse where I can grow our food, and raising my children free & wild in the beautiful Florida sunshine. My Fiancé, Karl and I moved here to Central Florida this past October from Bend, Oregon to be closer to family and soon start one of our own.

I've been a birth photographer and doula for five years now and have been part of nearly a hundred births in three different states. Birth work isn't just a job to me; it's a calling. I'm on a mission to shift the narrative around birth, celebrating it as the beautiful and transformative experience it truly is. I believe in the power of these images to inspire and empower, encouraging others to embrace the strength and beauty within their bodies and experiences.

"I am deeply passionate about honoring and celebrating the unique birth journeys of growing families. Since 2019, I have documented nearly a hundred beautiful birth stories, from home births to hospital births, free births, and cesareans. Your birth story will be extraordinary, and I would love to celebrate it with you! "

"The way Emily was able to be the "holder of our memories" is a huge task and I cannot at all imagine entrusting this to anyone else but Emily. She is warm, loving, comforting, gentle, kind and thoughtful and the care, love and attention she puts into her work and into my family were not unseen. Emily truly has an amazing gift and talent for this specific craft. We love her and are very grateful for her work."

# FAQ's

## When will I receive my gallery?

You'll receive 5 "sneak peak" images within 24 hours. The full gallery will be emailed to you within 2 weeks. Up to 4 weeks for photo + video. If you are on an extended payment plan, your gallery will be delivered when your final payment is made.

## What if you miss the birth?

In my five years as a birth photographer, I have never missed a birth because I was at another birth. I've only missed two REALLY fast babies! In those circumstances, I get to you asap and document as much of the story as possible. But on the off-chance that I am unable to attend your entire birth, I have a dedicated backup birth photographer on retainer for your birth. If you would like to have a chance to speak with them before the birth, that can be arranged.

## What if my birth doesn't go according to plan? Can you still capture meaningful moments?

Absolutely. Birth is unpredictable, and I understand that plans may change. I have experience adapting to any situation while maintaining sensitivity and respect for your experience. I'll work closely with you to document the journey, regardless of how it unfolds.
